

Cantus Firmus, Interest Me

Please wont you take me away, so I can see the sky today
I want to fly up where the birds fly way up there so so high

Try to take an interest in me
Its all you can do for now Im falling down
All around your feet

Time moves by much to slow, time takes and time makes us grow
And honesty has lost its meaning, Id rather you lie lie lie to me lie to me

Im waiting for you to make your move
And I know I cant expect you to
