

# Cantus Firmus, Strike A Pose

Verse 1. Bait the trap to catch those who are just trying to help you stay alive  
Strap me in to your mind-sucking device, apprehend my living eyes

Chorus. You take my mind and you look within all of the time  
I could never tell you all you need to know  
There are just some things you'll have to find out on your own  
You'll make it out alright, yeah I believe in you and all your lies you'll be fine

Verse 2. strike a pose, intimidate the ones that you keep close  
Strap me in to your mind-sucking device, apprehend my living eyes
