

Cap'n Jazz, Little League

hey coffee eyes
you got me coughin' up my cookie heart
makin' promises to myself
promises like seeds of everything i could be

hey ringwald haze
we're using bruises too loosely in a haste to lose me
and i've given all i could give
we live in quick flips, slips, tips, and taps
to snap us outta these statue traps

but i've taken all i could take
hey ringwald haze
we're using bruises like bruce lee
in a haste to bruise me
and i've given all i could give
i've taken all i could take
i've pushed all that i could push
i've pulled all that i could pull

kitty kitty cat, kitty kitty cat
thin kids get a skinny neck hex
heads hang heavy
i'm feelin' heavy

museum mouth
museum mouth
my how you've misused me
