Cape, Knock Me Of My Feet

(You are all I see you knock me off my feet, boy I can't belive knock me off my feet)

I don't need him I can leave him But I don't, I'm playing cool He don't own me I'm in control here So who am I trying to fool

Yeah, I know I'm in to deep But I can't help it if I'm weak Your love lifts me off the ground and leaves me spinning around and around

You are all I see You're all I need You knock me off my feet, boy I can't belive You're like a dream You knock me off my feet

Mm, I know, I should take it slow But I can't get him off of my mind Whatever I do, whereever I go I think about him all of the time

Yeah, I know I'm in to deep But I can't help it if I'm weak Your love lifts me off the ground and leaves me spinning around and around

You are all I see You're all I need You knock me off my feet, boy I can't belive You're like a dream You knock me off my feet

And with every touch I feel And with every kiss you steel Leaves me spinning around and around and around and around

You are all I see You're all I need You knock me off my feet, boy I can't belive You're like a dream You knock me off my feet

You are all I see You're all I need You knock me off my feet, boy I can't belive You're like a dream You knock me off my feet
