

# Capital Lights, Let the Little Lady Talk

Let down when your on top  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
you don't stop  
you don't stop the lovers hanging on

Well welcome home  
midnight to dawn  
light the battle fields  
we'll tear the walls down  
The girl pulls her own  
head-start to fall  
see the shock of a citywide blackout

She takes the cake to the podium top  
I got nothing left now but to carry on  
I'll carry on  
Well welcome home  
midnight to dawn  
light the battle fields  
and let her carry you on  
Hey, so make your best wishes  
I like to watch them all circle around

Let down when your on top  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
the last call  
on the house where the lover's hanging on  
Back down  
Get on the wall  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
You don't stop  
you don't stop the lovers hanging on

Well welcome home  
another late night show  
inviting with a knockout  
The girl takes the talk  
cheats you out of the walk  
paralyzing from the waist down  
I've caught the wind from the fits you throw  
I've got nothing left now but to let it go  
I'll let it go  
Well welcome home  
another late night show  
we're fighting for the knockout  
Hey, so make your best wishes  
I like to watch them all circle around  
Hey, the lottery you wasted  
I watch you burn your sweepstakes to the ground

Let down when your on top  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
the last call  
on the house where the lover's hanging on  
Back down  
Get on the wall

you don't stop  
you gotta let the little lady talk  
One round says you both drop  
You don't stop  
you don't stop the lovers hanging on

I wanna throw in the towel  
I wanna throw in the towel  
So this is how it feels to be down  
So this is what it feels like  
Yeah, I watch them circle around

Let down when your on top  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
the last call  
on the house where the lover's hanging on  
Back down  
Get on the wall  
you don't stop  
you gotta let the little lady talk  
One round says you both drop  
You don't stop  
you don't stop the lovers hanging on

Well welcome home  
Well welcome home  
hey hey You don't stop the lovers hanging on

Well welcome home  
Well welcome home  
hey hey You don't stop the lovers hanging on

Well welcome home  
Well welcome home  
hey hey You don't stop the lovers hanging on
