

Capital Sound, In The Night

In the night
Gotta make it right
In the night
Gotta feel your love babe
In the night
Gotta make it right
In the night
Gotta feel your love babe

Move now babe
I'm gonna take you into the night
'Cause I've got a feeling so strong
Move now babe
I'm gonna take you into the night
'Cause I've been waiting so long

Baby take me down to the ground
With your love makes me go round and round
Say I don't care what the other say
Say I know this feeling's here to stay
Say I wanna be the rhythm in your heart
On your mind and from the very start
Slight over here feel the vibe so wild
There my love is calling you into the night
Say times we need to make work out

About your passion that's all about
Say you deserve my heart my soul my girl
You to keep here in reserve
The land of love there I will show
And follow me let the feeling grow
Deep inside we'll feel so right
This love will call me into the night

In the night I wanna be your man
Follow me now yeah just take my hand
Let me show you why my love fits like a glove
And I'll take you high to the Heavens above
Wanna be the rhythm in your heart
On your mind from the very start
Slight over here feel the vibe soul break
My love is calling into the night
In the rhythm of love we just can't stop
Now all the way yeah we'll reach the top
'Cause danger I know you would deserve
Show you why I've got the power
The land of love there I will show
And follow me let the feelings grow
So deep inside that feels all right
Love is calling me into the night
