

# Capital Sound, Your Love Is My Energy

Feel the heat always in the air  
You baby ..... I'll take you there  
You got to believe when I see ..... you  
Then my love grows stronger. You know it's true  
It's seems like I am losing my mind  
When you're close to me I feel so fine  
The time is right, can't you see  
I can feel it, there's no other way

Cause baby your love is my energy  
Cause baby your love is my energy

Show me your body, move on to the floor  
Feel my love, you know I can give you more  
You got to be the lover in my dreams  
And you're the one, the one that I need  
It's feels like I am losing my mind...

Only love can set us free.  
Only love is my energy
