

# Cappadonna, Role Of Ya Lifetime

(feat. Solomon Childs)

[Intro: Cappadonna]

Homicide Hill, S.I., New York City  
Slow your roll, it's my word  
Slap all ya niggaz, I hate ya'll  
Aiyo, aiyo

[Cappadonna]

These streets got the best of me, my lifestyle's corrupt  
It's jakes lookin' for Don, and I don't give a fuck  
Cuz my niggaz be on the block, ready to rock  
We got big bags of ready on us, one glock  
Feds makin' it hot, so I dipped off  
I smoke the ill idiot shit like Malakoff  
Me and my thug niggaz, too chipped off  
Staten Island be the land of the lost  
You can't front, you can't floss  
S.I. New York City, the burnt out apartments, the hallways that's gritty  
It's a pity we livin' this shit, cracks under my dick  
Feel my pain, if you know about this shit  
Dope in the toilet, money in the mattress  
We keep ratchets, and like niggaz up north, we fuck a fat bitch  
We eat octopus too, and we love the catfish

[Chorus x2: Solomon Childs]

The building of the most powerful dynasty  
We not just any stars, whether you be a murderer  
Or maybe the world just never heard of you  
Go 'head and play it out, this the role of ya lifetime

[Interlude: Solomon Childs (Cappadonna)]

Shoot 'em up shit, nigga, shoot 'em up shit, nigga  
(Yeah bitch), yeah all up in your voicebox nigga

[Cappadonna]

Yo, all ya'll bitch ass muthafuckas, ya'll ain't shit  
You actin' like you can't happen til I pop the clip  
Have your girl suckin' my dick, run in your crib and take chips  
You don't know me, I don't fuck around with ya'll, homie  
You can't hold me, fake ass niggaz owe me  
Big Don from the group home  
Sittin' on the front stoop smokin' a bone  
All ya'll hatin' ass niggaz, get one in your dome  
Or I'm up in the studio, playin' the phone  
I put hits on your fam, dog, now you alone  
So why you just not popular yet, I grab my tech  
And run around the blocks and demand respect  
It's the who? Nigga, Jay Bird, that's my word  
I leave your body in the dollar van, your brains on the curb  
Staten Island niggaz be the most superb  
Laid back in the joint, just be smokin' the herb

[Chorus x2]
