

# Cappella, Move It Up

Baby, I need you here with me  
Because I've tried to make you understand  
I want you, each move you make  
I realize you are the right one for me

Move it up, come baby, move it up  
Come baby move it up  
Come baby move this rhythm  
Move it up, come baby, move it up  
Come baby move it up  
Come baby move this rhythm

Ha, Ha, Ha, Ha, gonna move it up, gonna move it up  
Ha, Ha, Ha, Ha, gonna move it up, gonna move it up  
Ha, Ha, Ha, Ha, gonna move it up, gonna move it up

Ha, Ha, Ha, Ha...

Take the chance, now step this way  
Make the move, now seize the day  
For what you had is what you miss  
Hand in hand, you know you wish

That's the way I feel  
The way I'm gonna be  
That's the way I feel  
That's the way I feel  
The way I'm gonna be  
That's the way I feel

Move it on up, move it on up, move it up  
Move it on up, move it on up, move it up  
Move it to the rhythm - move it up  
Move it to the rhythm
