## Cappella, Move It Up

Baby, I need you here with me Because I've tried to make you understand I want you, each move you make I realize you are the right one for me

Move it up, come baby, move it up Come baby move it up Come baby move this rhythm Move it up, come baby, move it up Come baby move it up Come baby move this rhythm

Ha, Ha, Ha, gonna move it up, gonna move it up Ha, Ha, Ha, gonna move it up, gonna move it up Ha, Ha, Ha, gonna move it up, gonna move it up

Ha, Ha, Ha, Ha...

Take the chance, now step this way Make the move, now seize the day For what you had is what you miss Hand in hand, you know you wish

That's the way I feel The way I'm gonna be That's the way I feel That's the way I feel The way I'm gonna be That's the way I feel

Move it on up, move it on up, move it up Move it on up, move it on up, move it up Move it to the rhythm - move it up Move it to the rhythm
