

Cappella, Throwin' Away

I'm throwin' away the work to be done be done be done be done
I'm throwin' away the work to be done be done be done be done

I'm throwin' away the work to be done
I'm throwin' away to have some real fun
I'm throwin' away the work to be done
I'm throwin' away the work to be done
I'm throwin' away to have some real fun
I'm throwin' away the work to be done
Together together

Come on come on come closer and listen
And start a party hardy shake your pants

To the beat just jump it very loud in your ear
Throw up your hand real hot and cheer
With the MC that's always leading
I'll keep on keep on going until your feet are bleeding
And so don't worry, be happy, it's gonna be alright
The party's pumping and tonight is the night.

Raise the roof I gonna raise the roof
Raise the roof I gonna raise the roof
Raise the roof I gonna raise the roof
Raise the roof raise the roof
