

# Cappella, Walking Away

In time I see the reason why  
Why I can't go on I can't go on  
And it's a long long long long road, uuh

I give you my one desire  
In my dreams I dream of you  
I give you my heart on fire  
What can I do to set you free

I can't go on, I can't go on, I can't go baby  
I can't go on, I can't go on  
Now it's the time to walk away

Walking away, I'll pass you on by  
Walking away, I'll leave you behind  
Walking away, I'll pass you on by  
Walking away, I know your history

You had the chance to love me  
You had the chance you did not see  
What have I got to be now  
What have I got to do for you
