

Captain & Tennille, 1954 Boogie Blues

Captain & Tennille

Song of Joy

1954 Boogie Blues

I wanta hear me some boogie played like I heard in 1954

I wanta hear me some boogie played like I heard in 1954

You know the way that Fats played the boogie,

You just don't hear that anymore.

I was just a little thing when I heard it on the radio

i was just a little thing when I heard it on the radio

Jerry Lee and Little Richard--/You just don't hear that anymore

It was a rompin', stompn', finger-poppin'/Good-time music for my soul

And when the drums were talkin' and the bass went walkin',

That started it, Rock and Roll, oh!

I wanta hear me some boogie played like I heard in 1954

I wanta hear my Captain play some boogie now like I heard in 1954

You know the way my Captain plays the boogie

You just don't hear that anymore.
