

# Caravan, All The Way (With John Wayne's Single

Well if I say to you I could forget it  
Believe it out of lying  
Easy come, easy go my time had been  
Until you came into my life

If I could do again I'd beg and borrow  
For a second time around  
But I wouldn't change my life by a single day  
If I couldn't have you for dreaming of

Takin' it all the way  
You and I, we had much better than before  
Better than all after  
Doin' it all the way  
You and I, we had time for nothing more  
Time to keep on loving, still...

In what you say, you'd never make a mountain  
Though you sometimes disappear  
Leaving me with all my own, so I could see  
All the seed I'd planted could be grown

Diving in all the way  
Must admit we had much better than before  
Better than all after  
Doin' it all the way  
You and I we had time for nothing more  
Time to keep on loving... till

All alone and ridin' home while you'd always find me there  
Getting on, whatever comes into my mind while you'd always find me there  
Oh-oh, if you got to be someone, let it shine on out of your eyes  
Till the feeling gets to you so strong that you can open up the skies...

A year or so, the day it comes tomorrow  
I saw you on the line  
Between the worlds of fantasy and swollen girls  
Never knew I'd see a better time

Takin' it all the way  
You and I we had much better than before  
Better then or after  
Doin' it all the way  
You and I we had time for nothing more  
Time to keep on loving...
