

Caravan, Chance Of A Lifetime

Think on the sunshine
Don't throw away
Chance of a lifetime to come
In a world that's not grey
You'll see there's diamonds in the skies
A rainbow round your shoulder for all time
Think on the sunshine in your mind

Time has no meaning
There's a year and a day
And all the people you see
Will smile if you stay
Laugh and the whole world laughs with you
Worryin' you'll all be in there trying too
See, there's no love lost in your mind

Look for the sunrise
It will shine upon you
It's always there in your mind
I'm searching there too
Don't live a life they want you to
Think of your own and then go see it through
Mind it's your mind, it's your mind
