

# Caravan, Hoedown

Got a gig I&#039;d like you to know, we&#039;re leaving here tonight  
We&#039;re going just to sing our song and everything&#039;s all right  
And we&#039;ll be missing you but that&#039;s for me to care  
Gotta go, better tell you now, &#039;cause something&#039;s in the air  
Don&#039;t care if I do it or die, that don&#039;t mean a thing  
Yes indeed that&#039;s all we need - so everybody, sing!

Count it out, but into yourself, love that&#039;s the thing  
It&#039;s there just if you don&#039;t know, it makes your body sing  
I&#039;m talkin&#039; about me, myself, and all the world around  
Wanna see you take you by the hand and do some mess around  
Don&#039;t have to know, don&#039;t have to know, lovin&#039; takes you back  
Gets about and I wanna shout, so everybody sing!

We&#039;ll get you, we&#039;ll get you everyday  
Get you, we&#039;ll get you every way  
Get you, when night-time comes along  
Get you, we&#039;ll get you with our song
