

Caravan, Lover

Lover, why don't you phone?
It's lonely and I need you near me
I don't believe it's over
Lover, you know I feel as if I talk too much
Shut me up, hold me close

Lover, when you come to me
I feel as if you never left
I need you to remind me
Lover, you know I don't know what it is with you
Shut me up, hold me close

Lover, why aren't you here?
It's lonely and I need you near me
It never will be over
