## Caravan, Lover

Lover, why don't you phone? It's lonely and I need you near me I don't believe it's over Lover, you know I feel as if I talk too much Shut me up, hold me close

Lover, when you come to me I feel as if you never left I need you to remind me Lover, you know I don't know what it is with you Shut me up, hold me close

Lover, why aren't you here? It's lonely and I need you near me It never will be over
