

# Caravan, Make Yourself At Home

Come in, everybody, just make yourself at home  
You can dance all night, you can feel alright till tomorrow  
Come in, anybody, just treat it as your own  
There's a lot to say if you wanna stay till tomorrow

Take the daily strain from upon your brain  
And move around at ease  
Give yourself a break from the same mistakes  
Close the window now and breathe

Come on, take your shoes off, make yourself at home  
Have a drink or two, it's all see you through till tomorrow

Come in, everybody, just make yourself at home  
You can dance all night, you can feel alright till tomorrow  
Laugh on, dance on, sing on, and join the company  
Just forget the time, have some peace of mind

Come in anybody, in our hospitality  
Then soon you'll see that tomorrow never comes
