

# Caravan, Songs And Signs

How did we feel that way?  
I can't see what was happening  
Do you still remember  
How it came to be another way?

Two into time  
Yes, we passed by as one together  
Give us a chance too  
Making songs and signs for  
Open mind  
Other people, must they see in through our blinds?  
No of course no  
At the time it was fine

Ain't life a disaster?  
You go too deeply

I know what you're feeling  
Does not fit in reality  
You can't leave the scene now  
That's more than you can tolerate

Later on too  
Stop the showdown  
You can star in  
Some scene you feel freely
