

Caravan, Welcome The Day

I was never warned
About people like you
I never really learned
About people like you
You changed my life around
You let me fall in love with you

Well I never dreamed
It would be this way
It never really seemed
There would come the day
You changed my life around
You let me fall in love with you

Waking is so nice now, sleeping is a dream
Living is so fine, nothing seems mean
Sad times are on ice now, troubles hide away
Living is so fine - welcome the day!

Well I never lived
Till I met you
Now I only give
When I give to you
You changed my life around
You let me fall in love with you - yes you did!

I was never warned
About people like you
I never really learned
About people like you
You changed my life around
You let me fall in love with you
