

# Carl Belew, Do I Have To

You may wonder why I love you when you treat me the way you do  
You may wonder why I want you when you want someone new  
There are things in life that I can't explain like this love I feel for you  
Do I have to have a reason to go on loving you  
Does the robin have a reason for every note he sings  
Does the violet stop and wonder why it blooms in the spring  
There are mean times that just happened and we don't know why they do  
Do I have to have a reason to go on loving you  
Do I have to have a reason to go on loving you
