

Carl Belew, How Long Is Forever This Time

(Oh how long is forever this time)

You say that you'll love me forever and you say that you'll always be mine
Now you're back and I can't help but wonder oh how long's forever this time
Though my heart tells me I should believe you
When I look through my mem'ries I'd wind
Our love's filled with pain please don't hurt me again
Oh how long's forever this time

Each time that you leave me my tears fall like rain
Yet I ask you to come back and hurt me again
One day you'll come back and you'll really be mine oh how long's forever this time
Oh how long is forever this time
