

# Carl Belew, Hung Up On Loving You

I'm restless when I'm not with you I'm so hung up on loving you  
Time just drags by when you're not here making the moment seem like year  
I tried to pass away the time doing crazy things to fill my mind  
Always together me and you I'm so hung up on loving you

I'm so hung up on loving you we're not ashamed of what we do  
Always together me and you I'm so hung up on loving you

I know the sun still shines as bright but something's missin' in its light  
I live but life just ain't the same your absence lights an utter flame  
My songs just seem to lose their trill cause when you're gone I'm lonesome still  
We're not ashamed of what we do I'm so hung up on loving you
