

# Carl Belew, I Gotta Be Somewhere

Now this is my hometown it's the only place I know  
Yeah I'm still a hanging round just where could I go  
It's a really thing when you said goodbye that I just disappear  
You know I gotta be somewhere I might as well be here  
Yeah you know I gotta be somewhere I might as well be here

I guess I'll hang around although we said goodbye  
Did you think that I'd leave town did you really think I tried  
It's a sad old town it's a lonesome town and I hope I make it clear  
You know I gotta be somewhere I might as well be here  
Yeah since I gotta be somewhere I might as well be here

It's mighty rough on me to stay here all alone  
But I can't find a reason why should just move on  
Any other place that I might be I'll never have you near  
And since I gotta be somewhere I might as well be here  
And since I gotta be somewhere I might as well be here
