

# Carl Belew, I Let Her Get Lonely

She'd still be here with me oh yes it's plain to see  
There's no bigger fool than me I let her get lonely  
Her love belongs to him I'd take her back again  
It's plain to see why she left me I let her get lonely  
I hope someday she sees if his love fails to show  
There's bigger fools to make mistakes like I did long ago  
It's too late now to show how much I love her so  
Oh foolish me I couldn't see I let her get lonely
