

Carl Belew, I'm So Lonesome

Love walked out and the blues walked in I can't remember when I've been
Oh oh this lonesome
Since you've said goodbye last night I see things in a different light
Oh oh I'm lonesome
I spend my time just wishing you'll come back to me again
I'd have felt this way before but I can't remember when
Give me your love and I took you away my blue skies turn to solid grey
Oh oh I'm lonesome
There's million things that I should do all I do is dream of you oh oh I'm lonesome
[ac.guitar - piano]
I spend my time just wishing...
Oh oh I'm lonesome
