

Carl Belew, Make Up Your Mind (And Say Yes)

That's right it's me again I thought I'd call and say hello
I just have to hear your sweet voice and the thing you should know
I have a little question that concerns our happiness
Just listen to your heart make up your mind and say yes
Make up your mind and say yes please say you love me too
I'll hang up the phone and wait here for you
Don't even try to answer now don't even try and less
Your heart keeps tellin' you make up your mind and say yes
(guitar)
Make up your mind...
