

Carl Belew, When My Baby Sings His Song

When the sun goes down behind a mountain to sleep until she wakes the dawn
I get the same old lonesome feeling cause that's when my baby sings his song

What's he doing in my world what's he doing holding my girl
If he's not more than just a friend why were you kissing him
What's he doing in my world

In his eyes I see the trace of sadness that comes when memories hold on
And his old guitar sounds just like it's crying when my baby sings his song

You say you've found somebody new but that won't stop my loving you
I just can't let you walk away am I that easy to forget

I make myself believe that he still loves me although to her he sings his songs
But as long as he returns to me at sundown I listen while my baby sings his song

Cause all I need is you all I want is you
To give my loving to all I need is you all I need is you
