Well you cheat me everytime I turn my face

No don't believe I will yes I'll stick around close to you

Gonna go way off forget you too I find me a gal a lot better than you

No I don't believe I will yes cause I'll take the chance on losin' you

[steel]

Gonna walk right up walk up to you and sister I'll tell you I'll ----

No don't guess I will guess I'll keep on chasin' you

If I see you at date I get one too struggle right in front of you

No I don't believe I will pray I'll suffer more than you

[guitar]

Spend my money you think I'm sore baby I'm gonna catch you on the row

No don't believe I will cause that's one way of keepin' you

Gonna jump in the well and end it all and listen to you holler squall and ball

No don't believe I will but I couldn't get long at all
