

# Carlene Carter, Nowhere Train

(Carlene Carter/Anni O'Brien)

Two blue hearts steppin' off a nowhere train  
Standin' on a one-way street dreamin' bout a long sea cruise  
Gonna have a brand new start  
Gonna have a grand new part to play  
We're gettin' off a nowhere train  
We won't turn back, we got some place to be  
A better life ahead for the likes of you and me  
Leave our sorrows behind  
That was a bad old time we had  
We're gettin' off a nowhere train  
We were young and we were runnin'  
Like our life depended on it  
But that ain't no way to live, now is it dear  
There were stars a fallin' far and wide  
To guide us on our nowhere ride  
You don't know where you're goin'  
'Til it's the end of the line  
Two blue hearts standin' on a dead-end track  
Lookin' like the cat drug in dreamin' bout a moonlit kiss  
Gonna have a life real sweet  
Keep it all nice and neat somehow  
We're gettin' off a nowhere train  
With this change of reservation  
We'll arrive our destination  
No memories to haunt us in this world  
With these limiles of life behind us  
There's no sadness here to bind us  
No reason to look back  
Now we're just lookin' up ahead  
Two blue hearts steppin' off a nowhere train  
Standin' on a one way street dreamin' bout a long sea-cruise  
Gonna have a life real sweet  
Keep it all nice and neat somehow  
We're gettin' off a nowhere train  
Oh darlin', you and me  
We're gettin' off a nowhere train
