

Carlos Santana, Let Me Inside

Well, hello, whats your name
Can I take you by the hand
Wont you please come with me
To a place of ecstasy
Paradise by the sun
Girl, Im sure well have some fun
By your eyes I can see
That you want to be with me
Ive been waiting for so long
Now that Ive found you
Aint no way Im gonna let you go

CHORUS:

Let me inside
Open up your heart
Come on and
Let me inside
Open up your heart

Night is clear, moon is bright
Stars are shining everywhere
In my arms youll be safe
Theres no need to be afraid
Its a warm summer night
And the temperature is right
Let your hair hang low
Girl, I want to feel the flow
Ive been waiting for so long
Now that Ive got you
Aint no way Im gonna let you go

CHORUS
