

Carlos Santana, She Can't Let Go

She has the innocence and vision of a child
How can I ever really know her?
Were riding on a carousel
Thats running wild
Around in circles til its over

And every time we reach the end
We go around again cause

Chorus:
She cant let go
And I dont wanna tell her no
She cant let go
And I dont wanna tell her no

I see her starin out the window at the rain
But she will never leave the fire
Sometimes it burns all night and covers up the pain
Sometimes it only leaves us tired

And every time we reach the end
We go around again cause

Repeat chorus
