

# Carlos Santana, Stormy

STORMY You are the sunshine, baby, whenever you smile  
But I call you Stormy today  
All of a sudden that ol' rain is fallin' down  
And my world is cloudy and gray  
You've gone away

Old Stormy Stormy  
Old Stormy Stormy  
Old Stormy Stormy  
Old Stormy Stormy

Yesterday's love was alive, the warm summer breeze  
But like the weather you changed  
Now things are dreary, baby, windy and cold  
And I stand alone in the rain  
Callin' out your name

Stormy Stormy  
Stormy Stormy  
Come back to me Stormy  
Stormy Stormy

Bring back that sunny day

Yesterday's love was alive, the warm summer breeze  
But like the weather you changed  
Now things are dreary, baby, windy and cold  
And I stand alone in the rain  
Callin' out your name

Whoa! Stormy

Stormy, come back to me Stormy  
Stormy, come back to me Stormy

Come on home! Stormy

Bring back that sunny day
