

Carlos Silva feat. Nelson Freitas & Eddie Parker,

... reality loving feels taking over me
I'm going crazy but I like the fact she has a firm hold on me
Feels like I'm running all the time, you are in my vein you are chasing me
My brain goes numb when you're around
Why is such a mystery someone please explain to me
Who this girl could be?
Why is such a mystery, something deep inside tells me
She's the one for me, oho

I'm floating on the clouds you should see me cause I'm high as can be, high, high
And this girl can make me do things that I cannot explain
When she passes by I don't know what to say
Feels like I'm running all the time, you are in my vein you're chasing me
My brain goes numb when you're around
Why is such a mystery someone please explain to me
Who this girl could be?
Why is such a mystery, something deep inside tells me
She's the one for me, oho
Why is such a mystery someone please explain to me
Who this girl could be?
Why is such a mystery, something deep inside tells me
She's the one for me, oho

She hot she hot she candy, the girls looks like candy
She hot she hot she candy, the girls looks like candy
She hot she hot she candy, the girls looks like candy
She hot she hot she candy, the girls looks like candy
She candy, she candy,
Mystery, mystery, mystery, mystery, mystery
Why is such a mystery someone please explain to me
Who this girl could be?
Why is such a mystery, something deep inside tells me
She's the one for me
Why is such a mystery someone please explain to me
Who this girl could be?
Why is such a mystery, something deep inside tells me
She's the one for me, she's the one for me.
