

# Carly Rae Jepsen, Let's Be Friends

call out your persuasions  
I got the feeling that you don't know what to say  
it's a black dress occasion  
nobody's dying it's a dinner not a date but i  
feel young and inspired  
that this is over and I am hoping you'll agree so i  
phase out and smile over  
that little phrase isn't you baby  
it's me

so take the tarot card  
and tell a fortune gold  
the past heartbreaks the lies we told we tell again

let's be finds that never speak again  
it's cool we can just pretend were friends and never speak again  
see you soon hope we can remain good friends

you take it  
th e bottle down  
man, this is easuer than how I though it's go  
you smiling  
like a devil  
you tell me you were coming  
here to leyt me know that  
it's over when it's over  
and it's over baby

so take the tarot card  
and tell a fortune gold  
the past heartbreaks the lies we told we tell again

let's be finds that never speak again  
it's cool we can just pretend were friends and never speak again  
see you soon hope we can remain good friends

catch you later  
never gonna see you again  
see you never  
let's be friends  
catch you later  
let's be friends  
catch you later  
never gonna see you again  
see you never  
I had a reali nice rime whit you  
I mean you're sort of a dick sometimes but  
someone out there is surely gonna love a dick  
check, please!

let's be finds that never speak again  
it's cool we can just pretend were friends and never speak again  
see you soon hope we can remain good friends

catch you later  
never gonna see you again  
I will see you never  
let's be friends  
catch you later  
never gonna see you again  
I will see you never  
let's be friends
