

# Carly Rae Jepsen, Put It To Rest

Faces lost in time  
Like a faded magazine

I've been hard to find  
I've been close but out of reach  
When you're next to me

Put it to rest so the rest won't follow me  
Put it to rest so the rest won't follow me  
The ones I loved and left behind

Put it to rest with the rest  
Put it to rest so the rest won't follow me  
The ones I loved and left behind

Feel some change again  
Like your moon won't let me sleep

Got my way again  
Got so close I couldn't breathe  
When you're next to me

Put it to rest so the rest won't follow me  
Put it to rest so the rest won't follow me

Put it to rest with the rest  
Put it to rest so the rest won't follow me  
The ones I loved and left behind

But I never even told you that I only ever wanted you  
And I wake up in the morning in the emptiest of empty rooms

The ones I loved and left behind  
Put it to rest so the rest won't follow me  
Put it to rest so the rest won't follow me  
The ones I loved and left behind

Put it to rest with the rest  
Put it to rest so the rest won't follow me
