

# Carly Simon, Amity

(Carly Simon / Sally Taylor)

[A different version of this song appeared on the Anywhere But Here soundtrack]

We were so strong then  
We built our house on our love  
We had a heart on the hill

Love was so proud then  
We lived in the clouds when  
The tower was crumbling down  
Around us on the hill

Oh, we've got to leave this town together  
Clean out another house  
Amity  
Amity is not too much to ask

We reach to the sky still  
In hopes we'd be able  
To see the bigger picture later on

But we tumbled down  
Jack 'n Jill all around  
As the valley swallowed up  
All the dreams we had made

Oh, see the lighthouse in the distance  
On some farther shore

We were so strong then  
We built our house on our love  
We had a heart on the hill

Love was so proud then  
We lived in the clouds when  
The tower was crumbling down  
Around us on the hill
