

# Carly Simon, Anyone But Me

(Simon/Baker/Kimball)

Straight from the hall of fame  
One of the worlds great lovers  
Darling you're not to blame  
I'm just sorry that you've been discovered  
When I look in you eyes  
I know hundreds of girls have been there  
I tried to be civilized  
And pretend I don't care

Take me away, burn out the past  
And hold me  
To calm my jealousy  
Hold me  
Forget your history  
I need you to show me  
We'll be like Adam and Eve  
That you love me  
I wish you had never loved anyone but me

Breathless and overcome  
Knowin' my desire is showing  
Passion can make you dumb  
But does so much to keep you going  
Turn off the songs of the past romance and

Hold me  
To calm my jealousy  
Hold me  
Forget your history  
I need you to show me  
We'll be like Adam and Eve  
that you love me  
I wish you had never loved anyone but me

With too many options  
You spin like a top  
you spin like a top - until you drop  
But now that you've dropped I'm gonna pick you up  
And love you until we just can't stop  
And love you until we just can't stop
