

# Carly Simon, Night Owl

(James Taylor)

Now a fish kinda likes the water  
And that's just where he wants to be  
And a monkey kinda digs bananas  
So he lives in the top of a tree  
But my eyes are made for darkness  
So the nighttime is right for me  
'Cause I'm a night owl honey, sleep all day long  
I'm a night owl honey, sleep all day long

Most folks they like the daytime  
'Cause they like to see the shining sun  
They're up in the mornin'  
Off and a runnin' till they're too tired for havin' fun  
But when the sun goes down  
And the bright lights shine  
My daytime has just begun  
'Cause I'm a night owl honey, sleep all day long  
I'm a nightowl honey, sleep all day long

Won't you turn out them bright lights baby  
They're just about to drive me blind  
Oh won't you draw them curtains for me papa  
Watch and you'll see my love light shine

Now there are two sides to this great big world  
And one of them is always night  
If you can take care of business in the sunshine baby  
I guess you're gonna be alright  
But don't come looking for me to lend you a hand  
My eyes just can't stand the light  
'Cause I'm a night owl honey, sleep all day long  
'Cause I'm a night owl honey, sleep all day long
