

Carly Simon, Play With Me

Play

You can play with me

But take it easy

Have

You can have your fun

But only with me

I've had

Some big time winners

Played games

You'd never imagine

I'd know

But now I'm ready

To quit those sinners

I've turned myself

Into the ground

And now

I feel so slow

Put a smile on my face

But don't bloodshot

My eyes

The love

That you give to me

Has enough surprise

Baby

You know what I was

You've seen me

At parties before

And don't cha know

That all

That running around

Was wild and gay

But in the end

Just a bore

So play

You can play with me

But take it easy

I said take it easy

Take is easy
