

# Carly Simon, So Many People To Love

They're praying on bended knees  
In their beds and on the dirty streets  
Lights are out on all the Christmas trees  
Feels like everyone's about to freeze  
Makes me worry  
Everywhere I look someone's counting on me

So many people to love  
And so little time  
Gotta hurry  
Big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better  
What's an angel gonna do when she needs some lovin' too?  
I'm just askin'

They're using their money up  
On shiny things no one will ever use  
And the ones without can't buy a pair of shoes  
Nothing gentle in the Daily News  
Makes me worry  
Everywhere I look someone's counting on me

So many people to love  
And so little time  
Gotta hurry  
Big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better  
What's an angel gonna do when she needs some lovin' too?  
I'm just askin'

Can't find neighbors who are mending fences  
From the mansions, to the Hamptons, to the Central Park benches  
City folk wearing all their armor  
Another St. Nick rings a bell on the corner

So many people to love  
And so little time  
Gotta hurry  
There are big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better

What's an angel gotta do when she needs some lovin' too?  
I'm just askin'. askin'  
I'm just askin'
