

# Carman, People Of God

Chorus:

We're the people of God, and we're here to say

Living for the Lord is the better way

We're the people of God, and we're on a quest

Raising up a banner of righteousness

Full of hope, faith, and fire

We're the chosen, rising to a higher plane

A performance, stirring up the gift that was dormant

War, no, we're not afraid

Send a giant out, we'll take him down with the Word, and the Spirit

This generation needs to hear it now

And demonstrated with God's power

Chorus

Extra, extra, read all about it

Satan lost the war and no doubt it works

This holy power, and it's ours to devour foes

Who come against us 'cause it send us out

And strong in the spirit

This generation needs to hear it now

And demonstrated with God's power.

Chorus

Someone hurts us, He's the one who mends us

God before us, who can be against us

Redemption, yes we're living proof

We're the church, church on the move
