

# Carnage, I don't give you chance

Blood, death, hear the noise  
You're addicted- fucking force  
Oh my God, here's the fight  
Never defeated, and full of might  
Now look at me, what do you see?  
You never want to insult me!  
Close your eyes, take a step with me  
You're soft pussy... and you will be!  
Insanity and abnormality  
Fuck what you call reality  
Careful, because you make me bad  
It is the day you should be dead  
I don't give you chance, motherfucker  
I don't give you chance, motherfucker  
I don't give you chance, motherfucker  
I don't give you chance  
I don't give you chance, FUCK!!!

(Chorus)

Say one, more word  
I will kill you, tomorrow!  
And rape, your corpse  
Because this is my world!  
You can change, your look  
And diversify your image  
But I, will find you  
And you will suffer forever!

(Solo)

Now look at me, what do you see?  
You never want to insult me!  
Close your eyes, take a step with me  
You're soft pussy... and you will be!

Careful, because you make me bad  
It is the day you should be dead  
I don't give you chance, motherfucker  
I don't give you chance, motherfucker  
I don't give you chance, motherfucker  
I don't give you chance  
I don't give you chance, FUCK!!!
