

# Carnage, Razor

You irritate me more, and more  
This is the fucking war  
You're next target in my line  
Do you really want this? Fine!  
I remember this happy days  
You and me, your fucking face  
Loving, kissing, sex with you  
I fuck the system, and fuck you too!  
PERKELE!!!

(Chorus)

My razor enter under your skin  
Your fucking blood belong to me  
Now i cut your better and better  
Through my razor we bleed together

(Solo)

Blood is flowing through your hands  
I drink your blood, and make new cuts  
You can cry, and you can scream  
But this is reality, not fucking dream!  
It was love, maybe illusion  
But my heart was fucking diffusion  
You was my honey, and you abducted me  
But it's already end, fuck you bitch!!!

PERKELE!!!

(Chorus)

My razor enter under your skin  
Your fucking blood belong to me  
Now i cut your better and better  
Through my razor we will bleed together... FOREVER!!!  
PERKELE!!!
