

Carola, If Life Was A Song

if life was a song would you sing it
would you sing it with me
if life was a song would you sing it
would you sing it with me
lets pretend that life is a song
if youre walking on a thin line
drawn between the feeling of love and despair
its a matter of believing
you can make it hope is everything
gotta wake up its a brand new morning
gotta wake up take what you need
theres no time for mistake and throw away your heartache, yeah
listen to me baby we can make it if we hurry
if life was a song
there are days when you grow stronger
the sun is up and good times in the air
gotta make it last longer
youre on top and life is feeling great
gotta wake up
if life was a song
no one knows whats in their bag
and heaven knows were way there
a waste of time gotta give it a try
to turn your lights on come on come on come on
if life was a song (repeat with ad libs)
