

# Carole King, Time Alone

Here we are in time alone  
No one else's feelings but our own  
Seems to me that we have always known  
What love was meant to be

Separately we stood before  
Life was good but we knew there should be more  
Time alone could open up the door  
And you came through for me

No sign of the changes we have come through  
No mind of the strangers who think they know you

Now as one we are a light  
Though sometimes we were blinded by the night  
Here in time alone it all seems right  
And I'm feelin' wholly free  
Won't you stay in time alone with me
