

# Cartel, If I Fail

"Time to go, this is goodbye," she said  
"Does it ever get easier to live like this?"  
And kiss the cheek  
Well I can't kiss you anymore  
And I, I would honestly love you now  
But I would lovingly let you down

Oh I have the hardest time resisting you  
And oh if you,  
If you feel the same way  
Then how can we be friends?  
He's right you know,  
We can't go on like this  
And oh I try to give you everything  
And if I fail well then I failed  
But at least I gave you something

I could put my trust in giving up the heart  
It makes the difference  
And how can you afford to settle down  
When I, I would promise to love you now  
But I would lovingly let you down

Oh I have the hardest time resisting you  
And oh if you,  
If you feel the same way  
Then how can we be friends?  
He's right you know, we can't go on like this  
And oh I try to give you everything  
And if I fail well then I failed  
But at least i gave you something

(It's better than silence, give me one good reason)

It's better than silence  
Give me one good reason  
To leave this in silence  
No you don't have a good reason

If you feel the same way,  
then how can we be friends?  
He's right you know, we can't go on like this  
And oh I try to give you everything  
And if I fail well then I failed  
But at least I gave you something

It's better than silence  
It's better than silence
