

# Cartel, The City Never Sleeps

I walk around  
it's 10 past midnight here and I'm moving  
to the sound of people drowning out their lives  
this little voice that says  
"hey, we should settle down" but we never listen  
we say to each other, just wait'll they see me now.

I'm, I'm feeling so alive don't you wish it was like this everynight?  
The city never sleeps for you and I,  
let's fly away this time and get on with our lives,  
but don't look down  
you'll never feel your feet touch the ground.

If it's all the same, i'd rather never leave  
it feels too good to hear the sounds  
and see the sights on Main St.  
Cause now I see millions of people just living out their lives  
and they all came from no where they all say  
just wait'll they see me now.

I'm, I'm feeling so alive don't you wish it was like this everynight?  
The city never sleeps for you and I,  
let's fly away this time and get on with our lives,  
but don't look down  
you'll never feel your feet touch the..

Now I'm, I'm feeling so alive  
don't you wish it was like this everynight?  
the city never sleeps for you and I,  
let's fly away this time and get on with our lives,  
but don't look down  
you'll never feel your feet touch the ground.

they'll never touch the ground
