

Cascada, One More Night

You are all I can remember
After all that we've been through
Forever in my heart
Now I'm through
And June feels like November
Still can't believe it's true
Too long we've been apart

One more night
I wanna to be with you
Where I wanna to hold you tight
It feels so right, tonight
So leave it up to you
And I think the time is right to stop the fight
One more night
I wanna to be with you
Where I wanna to hold you tight
It feels so right, tonight
So leave it up to you
And I think the time is right to stop the fight

Why can't true love be forever?
Why did my dream explode?
The day you went away
Cause I will keep this spell together
And wish you well of hope
Your girl from yesterday

One more night
I wanna be with you
Where I wanna hold you tight
It feels so right, tonight
So leave it up to you
And I think the time is right to stop the fight
One more night
I wanna be with you
Where I wanna hold you tight
It feels so right, tonight
So leave it up to you
And I think the time is right to stop the fight
